

Understanding the DID Mind

1) Mind noise -- constant confusion

- voices multiple conversations all going on simultaneously
- like radio on in background all the time, or turning dial to find a station
- blasphemies
- lewd thoughts/pictures
- cascading pictures; snapshots/movie
- intense self-hatred w/negative self talk

2) perpetual motion (circling, feeling of being on roller coaster)

- purpose = keeps things calm
- hides the enemy's work
- flight of ideas

3) terror driven mind (not fear but terror)

- fear of insanity
- not able to control thoughts brings panic
- understand what feels like to switch; not control, going under anesthesia or

4) seething volcano of rage

- something within us says, "This is wrong", no matter how young
- develop ways of coping
- constant busyness
- self-trancing; numbness; had to do to eliminate pain

5) Unique spiritual issues

a) system filled with lies

- about God (distortions)
- may confuse prince of air with God
- since Satanism is a religion, one of goals is to forever
 - separate the child from God
- about the Bible
- verses twisted in ceremonies
- Bible is linked to the terror, the atrocities, often used as justification for actions
- result = Bible feared and even hated and considered as part of the darkness
- about themselves

- identity as a human being is
- about other people
- difficulty trusting comes from assumptions made about all people based on encounters with most people

b) spiritual passivity

- fog, numbness about spiritual things
- inability to read or retain truth
- coldness toward God

c) often at root of passivity = a paralyzed will

- numbing power of overwhelming violence silences the will to resist
- feeling of total helplessness, powerlessness and vulnerability experienced over and over again shuts down something inside, the will to fight
- also, Satan will often extend hope and help and then will pull it away, building the belief that the person will never be able to escape his power; hopelessness that this causes results in a will that refuses to make choices
- there is a giving up that leads to the view that a person's body, their soul, everything is not their own, and they have no control over what is done to them; this is the ultimate in emotional deadness

d) confusions caused by counterfeit "spiritual"/psychic experiences

- these involve supernatural powers that sometimes have been labeled as from god
- all paranormal list here; ability to eliminate pain; mind reading; mind travel; sexual experiences with demons

e) weak grasp on reality

- truth doesn't matter
- life is not lives on a continuum but in snatches because of the dissociation;
- confusion about time and place and identity
- leads to present moment-based living;
- therefore whether something is true or real, doesn't matter
- learned that life doesn't have to make sense;
- reality and truth aren't a high priority

f) spiritual strongholds

- area in life that is a predominant problem
- self-hatred
- fear/terror
- suicide

g) curses or covenants

-that block spiritual growth and understanding

h) presence of demonic forces within the person

-demonic invasion; sent or invited

-all have influences from outside; this is within
